Hi Beth, Thanks so much for digging this up for me. I took a quick peek and seems like it should fill in some gaps.

I'm still looking for copies of any periodic sampling results were taken (like the 2011 data that you forwarded) to confirm that the POEs have and are working as designed.

I did just want to follow-up and make sure I understood a point that was made this morning – that Mountaire very recently took treated water samples from the homes listed in the Order and that the sample results of all are below the MCL? A copy of those would be appreciated.

Thanks again. I will be in contact.

Regards,

Amy

Subject: info

Hi Amy,

I sifted through the old files. I hope this helps.

Call me if you need me to look for more specifics. There are a lot of old salt delivery receipts, but they are cumbersome.

Thanks,

Beth
